Dear friend,

These Songs of Divine Love were written in a matter of weeks, but the process of recording and orchestrating them has taken a number of years.

I believe the master Jesus placed this entire endeavor in my heart, for the purpose of cherishing and nurturing the flame of Christ Consciousness that can be found historically through the many world religions and mystical traditions that honor God as a manifestation of Father, Mother, Son and Holy Spirit.

Songs of Divine Love attune to the true Light of God that burns in the heart and shines in the eyes of those who follow Christ—whether they know it on their outer consciousness or not—by loving God with all of their hearts, souls and minds, and by loving their neighbors as themselves. These are the lightbearers who uphold the virtues of peace, truth, givingness of self, compassion, forgiveness and non-compromise with the forces of evil that roam the world to create mayhem, irreverence for life and destruction.

We invite you to partake of this music and the words and concepts therein—sending love to the divine Presence in your heart and to the hearts of all of the saints, masters and great teachers of light who walked the earth in every age and who, like Jesus, ascended back to Heaven.

May God bless you, heal you, inspire you and comfort you as  
you read and sing these Songs of Divine Love.

In His Cosmic Joy of the Resurrection Flame,  
Thérèse Rose

*Shrine of Love*

O Mighty Presence of Life  
We bow before thy blessed light,  
O blazing love of the flame  
We sing thy sweet, sacred name:

Eternal Christos!  
Eternal Christos!  
Light of the Logos  
We praise thy name—  
Blessed Holy Spirit  
Whirling around me,  
I come to worship  
At the shrine of love.

O Soul of infinite fire  
Thy light is come, arise and shine!  
Glory of heaven abides  
Celestial courts open wide:

Eternal Christos!  
Eternal Christos!  
Light of the Logos  
We praise thy name—  
Blessed Holy Spirit  
Whirling around me,  
Bids us to worship  
At the shrine of love.

Infinite light of the One  
Intensify thy radiant sun,  
Sanat Kumara Ancient of Days  
Enter the hearts of these thy saints:

Eternal Christos!  
Eternal Christos!  
Light of the Logos,  
We praise thy name—  
Blessed Holy Spirit  
Whirling around me,  
I come to worship  
At the shrine of love.

All of earth kneels before thy light  
Victorious to end the night,  
Joy of the dawn, golden age  
In harmony we now proclaim:

Eternal Christos!  
Eternal Christos!  
Light of the Logos  
We praise thy name—  
Blessed Holy Spirit  
Whirlwind around us,  
Bids us to worship  
At the shrine of love.

Bids us to worship  
At the shrine of love.

## *Island of Shamballa*

A long time ago on a star far away  
A great council assembled in solemn array.  
The question weighed heavy on everyone's mind  
T'was the fate of the earth what to do with mankind.

The planet was burdened with discord and strife  
Human beings had forgotten the purpose of life.  
Earth must be dissolved, cosmic council decreed,  
Energies now return to the great primal sea!

Please give them a chance and perhaps over time  
These ones will remember they once were divine.  
I'll show them the way, I will be the front line  
Banish darkness away, threefold fire divine.

My soul they will call you the Ancient of Days  
To the Great Spirit in you give glory and praise.  
You will carry the torch of the Mighty I AM  
As the Arc of the Covenant, embodied Lamb.

I looked to the mountains and to my surprise  
Mine eye caught a spiral of light hovering nigh.  
T'was the souls of the hundred and forty four thousand  
On a mission of love, hearts abrimming with passion!

Our Father they said, we will help tend the flame  
We will journey to earth, we will honor your name.  
Shamballa the place that the builders prepared  
Kneeling forth in Thanksgiving with life-giving prayer.

Then upon the altar the Ancient of Days  
Called forth from the heavens a most dazzling flame.  
Three flickering plumes flashed forth filigree threads  
To connect each one's heart in a mystical web.

The crisis was over, the planet sustained  
And earth was redeemed for a new golden age.  
Now listen! the voice of the flame in your heart  
On this journey of love, making earth Freedom's Star!

Tis a gift to be simple, tis a gift to be free  
Tis the gift to come down where we ought to be  
And when we find ourselves in the place just right  
It will be in the valley of love and delight.

Tis a gift to be simple, tis a gift to be free  
Tis the gift to come down where we ought to be  
And when we find ourselves in the place just right  
We will be on the island of Shamballa.

## *New Revelation*

They have promised us a new dispensation  
They have promised us a new revelation  
This is the time, this is the place  
We have intended to see face to face!

Warriors of the soul  
Reaching for the goal  
Path of the ascension  
Drawing close to heaven

They have promised us a new dispensation  
They have promised us a new revelation  
This is the time, this is the place  
We are intended to see face to face!

From Shamballa we come  
With the Law of the One  
Smiling Buddhist presence  
With Christ healing essence

They have promised us a new dispensation  
They have promised us a new revelation  
This is the time, this is the place  
We have intended to see face to face!

One God, many faces  
In familiar places  
New wine of Aquarius  
Filling many vessels

They have promised us a new dispensation  
They have promised us a new revelation  
This is the time, this is the place  
We have begun to see face to face.

## *Sons of God*

Now are we the sons of God  
Now are we the sons of God  
And it doth not yet appear what we shall be  
But when He shall appear we shall be like him

This we know!

Now are we the blessed daughters  
Now are we the blessed daughters  
Of God and it doth not yet appear what we shall be  
But we know that when She shall appear we shall be like her

This we know!

Underneath our vine and fig tree  
Causal body manifesting  
The many mansions of our sacred space  
Souls arising, divinity descending

This we know!

Entering the secret chamber  
Kneel before the shining petals  
Of our hearts eternal lotus flame  
The sun behind the sun that lights our way

We shall see Him  
And shall know Her

From the ending  
New beginnings

Father—Mother  
Father—Mother  
We send Love!  
We send Love!  
We send Love!

Alpha and Omega

## *Glorious Saint Patrick*

There was a man in the land of Erin  
Who long before he went on to Heaven,  
Lovingly wandered yonder green vale  
Picking up serpents by the tail.

Glorious Saint Patrick we love you  
Help us now our faith renew:  
God's sons and daughters we will be—  
Climbing that hill of Calvary,  
For a Celtic cross of victory!

Mounting Croagh Patrick's rocky hill  
We are yet Irish to fulfill,  
Your promise to the Ancient of Days  
Your praise for Helios shining still.

Glorious Saint Patrick we love you!  
Help us now our faith renew:  
God's sons and daughters we will be—  
Climbing that hill of Calvary  
For a Celtic cross of victory!

Christ near! Christ here!  
Christ be with me and beneath me,  
Christ inside me and behind me  
Hovering over, stand before me!

Christ not the less in each heart I address—  
Christ not the less bless each heart, give them rest.

Glorious Saint Patrick we love you!  
Help us to now our faith renew!  
Climbing that hill of Calvary  
For a Celtic cross of victory!  
Climbing that hill of Calvary  
For a Celtic cross of victory!

## *Unspeakable Fire*

Have you felt the unspeakable fire  
Have you felt that unquenchable flame,  
Singing and wafting within you  
Now revealing your heart's secret name.

Have you felt the unspeakable fire  
Rising up from the depths of your soul,  
Purging you, leaving you hopeful  
That you have a new chance at the goal.

Have you felt the unspeakable fire  
Crashing wave upon wave of pure bliss,  
Taking you higher and higher  
Into spheres of divine forgiveness.

Have you felt the unspeakable fire  
That consumes the conception of sin  
Filled with a holy desire  
And you walk like an angel again.

We've been told God's a consuming fire  
Try our works of which sort they shall be—  
Love will meet fire for fire  
And reclaim lost integrity.

## *Highway Back to God*

Many a road that I have trod  
On yonder rocky hills and sod,  
Many a road in wind and fog  
Crossing gog and then magog.

Now I'm taking the highway,  
I'm leaving the byways,  
I'm sticking to that highway  
It's the highway back to God!

Signs coming up on the next bend  
Say "Yield to the devil, we recommend"—  
There's lots of construction going on ahead,  
On the highway back to God.

No, I'm taking the highway,  
I'm leaving the byways,  
I'm sticking to that highway,  
It's the highway back to God!

Make a U-turn for pleasure's sake!  
Get off the next exit its not too late!  
'Cause it's grueling work make no mistake—  
On the highway back to God.

No, I'm taking the highway,  
I'm leaving the byways,  
I'm sticking to that highway  
It's the highway back to God!

Hail storm is brewing overhead:  
Stop take the scenic road instead!  
It's useless to think you'll get ahead  
On the highway back to God.

No, I'm taking the highway,  
I'm leaving the byways,  
I'm sticking to that highway  
It's the highway back to God!

*So Close Yet  
So Far Away*

So close yet so far away,  
Just how close I cannot say:  
In the sunshine, in the rain  
You make me feel alive again!

So close yet so far away,  
Just how close I cannot say:  
I need you more and more each day  
To be the love that lights my way!

I need you more and more each day  
To be the love that lights my way!

## *Drink Me*

Lord I said, I want to love you more  
I can hear you knocking at my door  
But I'm afraid to let you in  
It's hard to let go of that sense of sin.

And you said, Drink me while I AM drinking thee  
It's a lot more simple than you think;  
You are my child, you will always be  
So drink me while I AM drinking thee.

Lord, I said, I've slipped many times before  
I've fallen on my face and I've landed on the floor  
I still can't walk straight even though I try  
I feel so let down, I just want to cry.

And you said, Drink me while I am drinking thee  
It's a lot more simple than you think;  
You are my child, you will always be  
So drink me while I am drinking thee.

Lord, I said, you know how to make me smile  
I'll wipe all those tears, if you'll just stay awhile;  
It's true that I could be a better friend,  
My heart is now open, so please come in!

And you said, Drink me while I am drinking thee  
It's a lot more simple than you think;  
You are my child, you will always be  
So drink me while I am drinking thee.

And I said, Drink me while I am drinking thee  
It's a lot more simple than we think—  
You are our God, you will always be  
So drink me while I am drinking thee;

You are our God, you will always be,  
So drink me while I'm drinking thee!

## *Deep in my Guru's Eyes*

I see worlds a' spinning  
And new beginnings  
Deep in my guru's eyes—  
I see life's potential  
Unscaled dimensions  
Deep in my guru's eyes:

A sea of spiralling blue lies there  
Inviting us to share,  
In waves of stalwart devotion  
That draw us deep in prayer!

I see hope unfolding,  
Love's fueling motion  
Deep in my guru's eyes—  
Celestial mansions  
Unfathomed kindness  
Deep in my guru's eyes:

A sky of shimmering stars shines there  
To cleanse me from my sin,  
And seal my soul from her blindedness  
Ushering her in!

Divine compassion  
Beyond imagine  
Deep in my guru's eyes—  
Then stern expectation  
Uncompromising  
Deep in my guru's eyes:

A ring-pass-not of fire burns there  
To guard me from within,  
Compelling me higher and higher  
That I too might ascend!

I see worlds a'spinning  
And new beginnings  
Deep in my guru's eyes

I see life's potential  
Unscaled dimensions  
Deep in my guru's eyes  
Deep in my guru's eyes

## *Upheaval of Creation*

The tumble weed rolled into town  
Reminding me of vows,  
The ones I gave to you  
In the upheaval of Creation!

The sunsets of a thousand lives  
The strap across my back,  
The spear that pierced my shoulder, dear  
The memories flash back!

A thousand flaming arrows  
We shot into the sea—  
In Babylon we rested,  
Albeit uneasily.

Endless winding pathways  
Thoughts like flashing rays  
Unsatiated hunger  
Toward India's spice we thunder!

My God when will you cleanse the world,  
When will you come for me?  
I stand now desiccated  
Like Jonah's wilted tree!

Upheaval of Creation  
I held my reservation—  
Love and appreciation  
Spoiled by Fallen conflagrations.

The final trumpet blows!  
There's no place left to go.  
Light dawns to lead all home this time  
We must reap what we sow.

The Piper stops in silence,  
The drummer's shining face,  
Then both begin to sing again  
And it's Amazing Grace!

Riding solar spires  
Gabriel's lofting fires  
Spires Deity Sires  
Embracing God desire!

Upheaval of Creation  
Vows of appreciation  
The dawn of new elation  
For the Ancient of Days

The dawn of new elation  
For the Ancient of Days!

## *Auld Acquaintance*

Should auld acquaintance be forgot  
And never brought to mind?  
Should auld acquaintance be forgot  
And days of Auld Lang Syne.

Lord Gautama, we beseech thee  
On this New Year holy night—  
Send your blessing now enfold us  
In your radiant buddha light!

For auld lang syne my dear,  
For auld lang syne,  
We'll take a cup of kindness yet  
For auld lang syne!

In the valley Himalayas  
Gathering before thee, Lord  
Waiting for your mighty blessing  
As we did in days of yore.

For auld lang syne my dear,  
For auld lang syne,  
We'll take a cup of kindness yet  
For auld lang syne!

Lord Gautama we beseech thee  
On this Wesak holy night,  
Send your blessing now enfold us  
In your radiant Buddha light.

For auld lang syne my dear,  
For auld lang syne,  
We'll take a cup of kindness yet  
For auld lang syne!

From the valleys to the mountains  
High on Himalaya's snow,  
To the Andes, Light of Cuzco,  
Across the great plains below.

Lord Gautama, Lord of the World,  
Your love and light is everywhere—  
In the hearts of all your children  
Which we do now live to share.

Should auld acquaintance be forgot  
And never brought to mind?  
Should auld acquaintance be forgot  
And days of Auld Lang Syne.

For auld lang syne my dear,  
For auld lang syne—  
We'll give a cup of kindness yet  
For auld lang syne.

## *Anthem of Liberty*

Allons enfants de la patrie,  
Le jour de gloire est arrivé.  
Transcendant toute erreur humaine,  
Vers l'amour nous sommes élevés.  
Vers l'amour nous sommes élevés!  
Entendez vous dans nos entourages  
Le chant des anges exaltés?  
Ils viennent pour nous annoncer  
La victoire de la liberté.  
Gardez l'ame, citoyens!  
Vers Dieu, vos yeux levés.  
Marchons, l'espoir à nos cotés.  
Un monde à délivrer.

Arise ye children of the mother.  
The day of glory has arrived.  
Transcending all human error  
Towards love we now can aspire.  
Towards love we now can aspire.  
Do you hear them gather around us  
Sweet song of exalted ones?  
These angels come now to declare  
Mighty Victory for Liberty.

Guard your soul,  
Ye Sons of Light!  
Towards God your eyes upturned.  
March on, march on,  
Hope at your side,  
Deliver now the world!

## *In the Temple Beautiful*

In the temple beautiful the word made flesh  
Flowing from the Mother, Vach's holy breast  
Rainbow rays of color now impress  
Secret rays of thunder worlds to redress!

Music of the spheres descend we pray  
Exalting all life in limitless embrace  
Divine generatrix, mystical speech  
Forming out of chaos tangibility

In the temple beautiful the word made flesh  
Flowing from the Mother, Vach's holy breast  
Rainbow rays of color now impress  
Secret rays of thunder, worlds to redress

Flute of Sarasvati, graft your sound in me  
Mother of the Vedas, middle way we seek  
Come forth mighty Svaha, breathe your breath on me  
Holy Navez light of Sacred Trinity

In the temple beautiful the word made flesh  
Flowing from the Mother Vach's holy breast  
Rainbow rays of color now impress  
Secret rays of thunder, worlds to redress

Himalayan love Blue Lotus fire!  
Flaming rose of Sirius to heaven we aspire,  
Daughter of the Daksha, help me tune my strings  
Song of Parabrahma lovingly to sing

In the temple beautiful the word made flesh  
Flowing from the Mother Vach's holy breast  
Rainbow rays of color now impress  
Secret rays of thunder, worlds to redress

In the temple beautiful the word made flesh  
Flowing from the Mother Vach's holy breast  
Secret rays of thunder worlds redress  
And may all life this night be blessed!

## *Babaji*

In the Himalayan mountains in a valley tucked away  
Stands a master with disciples round a campfire so they say—  
Holy Father how they call him and he answers with a smile  
He is a guru of all gurus he is heaven in disguise!

Babaji! Babaji!

We are yogis and yoginis of the West who call your name!  
We are bhikhus and bhikunis ushering the golden day!

Call your name invoke your blessing on another mountain range  
From the Andies to the Rockies we adore God's holy flame—  
Won't you stand around our campfire in your light body we pray  
Welcome you and your disciples for a darshan you will say!

Babaji! Babaji!

We are yogis and yoginis of the West who call your name!  
We are bhikhus and bhikunis ushering the golden day!

Eastern master come enfold us, show us now your smiling grace  
Brotherhood we must still master, it's the true Aquarian way—  
Saint Germain needs more disciples, won't you come to show the way  
And America is pining to ensoul the 1 AM rays!

Babaji! Babaji!

We are yogis and yoginis of the West who call your name!  
We are bhikhus and bhikunis ushering the golden day!

Help us now become the adepts and transcend all time and space  
Become real in our God presence and our brethren now embrace—  
Sons and daughters of our Father gather now in wilderness  
Conquering all pride and ego their divine self will replace!

Babaji! Babaji!

We are yogis and yoginis of the West who call your name!  
We are bhikhus and bhikunis ushering the golden day!

Friend of many distant ages come renew our vows of fate  
Where we tether to the teachings and all worldly lust forsake—  
The path upward is not easy and we often make mistakes  
Help us climb the highest mountain and forsake all lesser states!

Babaji! Babaji!

We are yogis and yoginis of the West who call your name!  
We are bhikhus and bhikunis ushering the golden day!

For compassion we beseech you as we trust your blessed name  
Give us now our token karmas, come now to initiate—  
For the time is short and cycles swiftly move us toward the gate  
Help us to become just stewards and to live life without hate!

Babaji! Babaji!

We are yogis and yoginis of the west who call your name!  
We are bhikhus and bhikunis ushering the golden day!

Help us climb the highest mountain and forsake all lesser states.  
Help us to become just stewards and to live life without hate.

## *Pearl of Great Price*

Floating on the seas of life  
Trade winds blowing balmy spice  
Turquoise waters of the deep  
Crystal clear in restful sleep  
I gaze into the deep  
I gaze into the deep

Something shimmers in the sand  
'Neath the waves in mermaid land  
Looking for that long-lost star  
That guided sailors from afar  
I wander restlessly  
I wander restlessly

And so I dive beneath the waves  
To look for treasure buried safe  
Under the sandy burrows fair  
I find a pearl extraordinaire  
Truly a pearl of great, great price  
Truly a pearl of great, great price

Who could have left her lying there  
Beneath the sands devoid of care?  
I ponder as I hold my breath  
Then pick her up with tenderness  
Securely bring her to the air  
Securely bring her to the air

The azure skies are filled with joy  
Their sweet perfume banish the toil  
And popcorn clouds traversing there  
Remind me of an ancient prayer  
I smile with happiness  
I smile with happiness

My soul the pearl of greatest price  
Plunged to the depths restored to life  
My soul, my pearl, you won't be sold  
But given to the king foretold  
But given to the king foretold

Child of the Isles you are now free  
You will obtain your victory—  
That which was lost is now redeemed,  
Your soul now wed to fiery ring  
And now my child you are that king  
And now my child you are that king!

## *Gayatri Mantra*

Om bhur bhuva svaha  
Tat savitur variniyam  
Vargo de vasya di mahi  
Diyo yo na prachodaat!

Om Bhur Bhuva Svaha  
On your chariot of light  
Surya from the Central Sun  
Descend now to make all one!

Om Bhur Bhuva Svaha  
Blessings for all sentient life  
We bow before thy sacred flame  
We sing with joy thy holy name:  
Surya!

Om bhur bhuva svaha  
Tat savitur variniyam  
Vargo de vasya di mahi  
Diyo yo na prachodaat

Vargo de vasya di mahi  
Diyo yo na prachodaat

## *Lord Krishna*

Krishna, Lord Krishna  
Thou Christ of the East  
Come to our Prasad,  
God's most sacred feast,  
Gopala, Govinda, we're waiting for you  
To bless us with magical loving like you!

K is for kindness and loveliness too  
R is for Rama and colors of blue  
I for "imagine" a world to renew  
As we sing our hearts' longing devotion to you!

Krishna, Lord Krishna thou Christ of the East  
We prostrate before you, we kneel at Your feet  
Like Magda blessed Jesus with oil and tears  
We long to be Radha, our Christ Self to meet!

S we surrender the things that we do  
N is for nothing we withhold from you  
A for the Aum that we're chanting with you  
As we ride your sweet chariot, Arjuna in queue!

Krisna, Lord Krisna  
Thou Christ of the East  
Come to our Prasad,  
For something to eat  
Gopala, Govinda we're calling for you  
To bless us with magical loving through you!

A child of God's heart you were once naughty too  
For butter so sweet that was waiting for you,  
Please come steal our hearts with the voice of your flute  
From mischief to heaven we now follow you!

Gopala Govinda, the sound of the "Moo"  
Blessed Mother of India from Shores of Ra Mu  
A hymn of the Vedas o'er Ganges so blue,  
Is butter so sweet that is waiting for you

Krisna, Lord Krisna thou Christ of the East  
Come to our Prasad, God's most sacred feast  
Gopala, Govinda, we're waiting for you  
To bless us with magical loving like you

Gopala, Govinda, we're waiting for you  
Our bodies are temples for your magic flute!

## *Mother of the World*

Behold! the Mother of the World is coming.  
Behold! The Mother Mother of the World is here.  
Where have you been, O Mother dear,  
Say how do we draw near?

To touch the hem of hallowed veil,  
For glimpse beyond the years;  
Vast treasures immemorial  
Sweet incense without tears.

The age of Mother is at hand,  
So was the prophecy;  
An impulse from the Pleiades  
Immortal destiny.

Let us run to greet her then  
Bright Children of the Sun!  
And usher in a golden age  
With Mother, one become!

Nay, we have never been alone  
The Brotherhood of Light  
Hastens our course with Book of Prayer,  
Beckons from lofty heights.

Sweet mystery of life unfolds.  
'Neath canopy of stars  
Initiates of the Brotherhood,  
The vast Antahkarana.

Though twists and turns we must traverse  
Beware the jagged crevace!  
Still, step by step we climb the mount  
That leads us to her Heaven.

“Become immortal,” Mother goads,  
“Let go of sin and strife.  
Please do not weary in well doing  
And above all, serve Life.”

“Satsanga,” Mother whispers  
Before she turns away;  
Hail! sparkling Buddhic jewels  
Thrice blessing us each day.

“Satsanga,” says our Mother  
Then turns to point the way;  
With sparkling gems she holds for us  
To guide us on our way.

Gate gate paragate  
Parasamgate Om  
Parasamgate Om!  
Gate gate paragate  
Gate gate paragate  
Bodhisvaha Om

Gone gone far beyond this place  
Going going home,  
Leaving earth's plane without a trace  
To dimensions far beyond:

Gate gate paragate  
Parasamgate Om  
Parasamgate Om!  
Gate gate paragate  
Gate gate paragate  
Bodhisvaha Om  
Bodhisvaha Om!

Breaking the shackles of time and space  
Enlightenment hard won,  
Then coming back in divine grace  
Bodhisatva now become:

Gate gate paragate  
Gate gate paragate  
Parasamgate Om  
Parasamgate Om!  
Gate gate paragate  
Gate gate paragate  
Bodhisvaha Om  
Bodhisvaha Om!

Lead us from the binding maze  
Of lesser human form,  
Free from dual consciousness  
On a wave of soundless Om:

Gate gate paragate  
Gate gate paragate  
Parasamgate Om  
Parasamgate Om!  
Gate gate paragate  
Gate gate paragate  
Bodhisvaha Om  
Bodhisvaha Om!

On a wave of soundless Om  
Shepherding all home

## *Astrea Dear*

A thousand arms, a thousand eyes  
Are gazing at me from the skies  
A thousand arms, a thousand eyes  
Are reaching for me from the skies!

Astrea Dear  
The one the demons fear,  
Astrea Dear  
Is drawing very near!

A thousand arms, a thousand eyes  
Are gazing at me from the skies  
A thousand arms, a thousand eyes  
Are reaching for me from the skies!

Astrea Dear  
Your mighty sword to wield,  
Astrea Dear  
Starry Mother be our shield!

A thousand arms, a thousand eyes  
Are gazing at me from the skies  
A thousand arms, a thousand eyes  
Are reaching for me from the skies!

Astrea Dear  
May all the darkness flee,  
Astrea Dear  
And million souls now free!

A thousand arms, a thousand eyes  
Are gazing at me from the skies,  
A thousand arms, a thousand eyes  
Are freeing all souls from the skies!

## *Scarab in the Sky*

I was sitting on the banks of the Nile one day  
Watching the time slowly pass away,  
Then feeling the fire I looked on high  
To see a flaming scarab cross the sky.

Amon Ra  
Toward you my soul aspires,  
Fill me with your light  
That I too might take flight!

I was sitting on a wave of desert land  
Staring at the Sphinx sitting on the sand,  
Sitting there since Atlantis time  
Patiently awaits our God to find.

Serapis Bey  
From Luxor clear the way,  
Feather of Ma'at weighs in  
To cleanse me from my sin!

I was sitting in the heart of the Pyramid  
Pondering the sacred mysteries,  
When I crossed the portal of initiation  
Holy ecstasy in adoration.

Isis unveiled  
Now whispers "what is is,"  
Osiris fills my cup  
With Horus, Christ I sup!

I am sitting on the banks of the Nile again  
Contemplating life as hourglass sand,  
When I feel the fire and look on high—  
Flaming disc of Aten flashing through the sky!

Winged chariot of heaven is drawing nigh!

Then my soul like the scarab begins to fly!

## *La Déesse*

Au fond du temple saint  
Paré de fleurs et d'or,  
Une femme apparait!  
Je crois la voir encore!

In the holy temple lavished with flowers and gold  
A woman appears

La foule prosternée  
La regarde, étonnée,  
Et murmure tout bas:  
Voyez, c'est la déesse!  
Qui dans l'ombre se dresse  
Et vers nous tend les bras!

The crowd kneeling says. "Look, this is the goddess!"

Son voile se soulève!  
O vision! o rêve! La foule est à genoux!

Her veil lifts. What a vision, what a dream!

Oui, c'est elle! C'est la déesse  
Plus charmante et plus belle!  
Oui, c'est elle! C'est la déesse  
qui descend parmi nous!  
Son voile se soulève et la foule est à genoux!

Now through the crowd,  
She looks for a passageway.  
Her long veil is already hiding her beautiful face,  
But she vanishes.

Mais a travers la foule  
Elle s'ouvre un passage!  
Son long voile déjà nous cache son visage!  
Mon regard, hélas! La cherche en vain!  
Elle fuit! Elle fuit!

Yes, it is she, the Goddess, the Divine Mother  
Who comes this day to unite us!

Oui, c'est elle! C'est la déesse!  
En ce jour qui vient nous unir,  
Et fidele a ma promesse,  
Comme un frère je veux te cherir!  
C'est elle, c'est la déesse  
Qui vient en ce jour nous unir!

And faithful to my promise, I will love you

Oui, partageons le même sort,  
Soyons unis jusqu'a la mort!

Even beyond this world!

## *Run Away to Heaven*

The devil came unto me late one night  
Trying to pick yet another fight.  
Got down on my knees, to the Lord I prayed  
Then he said he'd come for me on another day.

Go away now you get out of my face,  
Cause I'm calling down the power of redeeming grace.  
Tired of your lies and your catchy deceptions  
If you come back after me, I will run away to heaven!

The devil came back and tried to be nice,  
But it was plain to see his heart was cold as ice.  
So I got down on my knees to the Lord I prayed  
And he said he would be back on a better day.

Go away now, you get out of my hair,  
Cause I've got a date with God and I'm halfway there.  
I'm tired of your lies and your catchy deceptions  
If you still come after me, I will run away to heaven!

The devil came again like he did with Eve,  
He said I wouldn't die if I tried a little evil.  
So I dropped down on my knees to the Lord I prayed  
And he said he would come back on the final day.

Go away now, cause I'm a lost and found  
My soul's not hanging out for another round.  
The Bible says, "Resist the devil, he will flee,"  
And the best weapon I found is a bended knee.

The devil came to me in that final hour  
I looked him in the eye and he seemed mighty sour.  
Then angels came around to lift me away  
Indeed it was the end of a better day!

Go away now, you sophisticated fool,  
Don't you know the ticket out is the Golden Rule.  
Turned my life around, was the best decision  
And when you came after me, I did run away to heaven.

Turned my life around, was the best decision  
And when you came after me, I did run away to heaven.

## *Out of the Temple*

Moses came to the children of God  
to lead them from their stale fleshpots.  
Then, the Egyptian priesthood said:  
Don't you turn the rivers red!

We cast you out of the temple  
Be gone with you we say!  
We cast you out of our temple  
You're embarrassing, away!

Open the gates of the Lord, David said,  
Where the righteous ones may dwell.  
And the temple is in the heart,  
Time to have a fresh new start!

For the stone the builders rejected  
Has become the cornerstone.  
Yes, the stones the builders rejected  
Will become the cornerstone.

Jesus came to the children of God,  
To lead them to the I AM rod.  
Then, the haughty pharisees said:  
Don't you raise them from the dead!

We cast you out of the temple  
Be gone with you we say!  
We cast you out of our temple  
You're an impostor, away!

Open the gates of the Lord, Peter said,  
Where the righteous ones may dwell.  
And the temple is in the heart  
Time to have a fresh new start!

For the stone the builders rejected  
Has become the cornerstone.  
Yes, the stones the builders rejected  
Will become the cornerstone!

Origen came to the children of God,  
To lead them from their priestly clods.  
Then, the Nicene Council said  
Don't say man is God instead!

We cast you out of the temple,  
Be gone with you we say!  
We cast you out of our temple  
You're a blasphemy, away!

Open the gates of the Lord, gnostics said,  
Where the righteous ones may dwell.  
And the temple is in the heart  
Time to have a fresh new start.

For the stone the builders rejected  
Has become the cornerstone.  
Yes, the stones the builders rejected,  
Will become the cornerstone!

The Cathars came to the children of God,  
Instead they turned into a mob.  
Then, the Pope's authority said,  
Don't you be divinely fed!

We cast you out of the temple  
Be gone with you we say!  
We cast you out of our temple  
You're a heresy, away!

Open the gates of the Lord, mystics said,  
Where the righteous ones may dwell.  
And the temple is in the heart,  
Time to have a fresh new start!

For the stone the builders rejected  
Has become the cornerstone.  
Yes, the stones the builders rejected  
Will become the cornerstone.

Now the Age of Aquarius is here—  
Far too late on the karmic wheel.  
Born again popes, ecclesiastical elites  
Don't you feed on Jesus' sheep!

Or you'll be cast out of the temple,  
The New Jerusalem!  
The City Foursquare is erecting  
In the consciousness of men!

Open the gates of the Lord, Jesus says,  
Where the righteous ones may dwell.  
And the temple is in the heart  
Time to have a fresh new start!

For the stone the builders rejected  
Has become the cornerstone.  
Yes the stones the builders rejected  
Have become the cornerstone.

For the stone the builders rejected  
Has become the cornerstone.  
Yes the stones the builders rejected  
Will become the cornerstone.

## *My Nanny's Hands*

I sometimes hold my Nanny's hands  
So tender and so sweet,  
I want to feel the love in them  
I draw them to my cheek.

Nan says God's spirit lives in her  
And I know that it's true.  
When Nanny cuddles close to me,  
Then I can feel it too.

I sometimes hold my Nanny's hands  
So twisted and so weak,  
I want to take the pain away  
I draw them to my cheek.

She pulls me close and tells me,  
That everything's okay,  
'Cause Nanny has a secret Prince  
Who helps her through the day.

My Nanny says he loves her  
For no reason whatsoever.  
Not 'cause my Nanny's pretty,  
Or good or even clever.

He's her knight in shining armor,  
Who lives up in the sky,  
Who'll go dancing with my Nanny  
On the day her Spirit flies!

I sometimes hold my Nanny's hands  
So twisted and so weak.  
I want to take the pain away,  
I draw them to my cheek.

I'm sad to leave you Nanny,  
I know I'll miss you so.  
The sun is slowly setting  
And now I have to go.

You pull me close and tell me,  
That everything's okay,  
'Cause you have a secret Prince  
Who helps you through the day.

He's your knight in shining armor,  
Who lives up in the sky,  
Who'll go dancing with you Nanny  
On the day your Spirit flies!

He's your knight in shining armor,  
Who lives up in the sky,  
Who went dancing with you Nanny  
On the day you said good-bye.

I am longing to see the sweet face of my Lord.

## *Golden Years*

Golden years are passing by  
Happy, happy golden years  
Passing on the wings of time  
These happy golden years,  
Call them back as they go by  
So sweet their memories  
Oh, improve them as they fly  
These happy golden years.

Golden years are passing by  
Precious precious golden years  
Let there be no idle hour  
Nor sorrow, grief or tears  
Ah! The good we all may do  
As swift the moments pass  
So to our nobler self be true  
Reward will come at last!

Golden years are passing by  
Fleeting, flying they sail on  
Life is but a passing hour  
Before we know it's gone  
Soon the parting veil appears  
Yes, Day by day it nears  
So let us sweeten on the vine  
The master will appear!

Golden years are passing by  
Happy, happy golden years,  
Tempus fugit, sands of time  
That blow away our fears.  
Let us do our work as well  
The unseen and the seen  
And make the house where God will dwell  
More beautiful and clean!

Golden years are passing by  
Sacred opportunity  
Let us hail them as they fly  
And cherish what is here.  
Love is the key, a golden thread  
That binds our memories  
And lights a path that leads all home  
Blessed Immortality!

Golden years are passing by  
Precious, precious golden years,  
Leaving footprints in the sand  
For those who follow near.  
Then flying high beyond this plane  
Our soul forever free,  
And holding on to Heaven's hand  
Our treasure will appear!  
Now clasping arms with Heaven's bands  
To claim life's Victory!

inspired by the poem by Will Thompson,  
These Happy Golden Years

## *Shores of Galilee*

Was I not with you Master  
When you made the blind man see  
And broke the bread in morsels  
On the shores of Galilee?

We lingered on the beach  
After the people heard you speak  
Thirsting for the water  
That you promised we would drink.

My head upon your shoulder  
Your heartbeat close to mine  
Your hand upon my forehead  
Our union was divine.

"Wait for me," you said to me  
Looking at the sands of time,  
"Watch and pray for me each day  
Forever you'll be mine."

I saw them nail you to the tree  
And tear your garments into shreds,  
I prayed while you were in the tomb  
I hoped you were not dead.

I ran to you on Easter morn  
I was so overwhelmed,  
Could not contain the joy to know  
You're with us once again!

At eternity you gazed  
With essence from above,  
“Wait for me,” you said again.  
“Watch and pray, my love.”

I watched the world around me change  
Two thousand years I prayed  
I knew that you would come again,  
That things wouldn't be the same.

Now when I stop and think of you  
I feel your Presence here—  
Not since that day upon the shore  
Have I felt you so near!

Your hand upon my forehead  
Your heartbeat close to mine,  
You live inside me Lord each day  
Forever you'll be mine.

Your hand upon my forehead  
Your heartbeat close to mine,  
You live inside me Lord each day—  
The Light of Christ that shines!  
The Light of Christ that shines!

## *Sweet Seraphim*

Sweet Seraphim  
O Come to my friend—  
Help him to feel  
God's loving intent,  
Heal him of sadness  
Hopelessness too  
Help him to tunnel his way to you!

Broken hearts are everywhere  
Yearning for a wholesome prayer,  
Heal our hearts with tender care  
That we might have some joy to share.

Sweet Seraphim  
O come to my friend—  
Help her to feel  
God's gracious amend,  
Heal her of sadness  
Hopelessness too  
Help her to tunnel her way to you!

Broken hearts are everywhere  
Yearning for a wholesome prayer,  
Heal our hearts with tender care  
That we might have some joy to share,  
That we might have some joy to share.

## *Walking on the Water*

Walking on the water, I'm falling down  
O Lord, won't you please hold my hand?  
The tide is rising  
I'm over my head—  
Still holding on fast to the words that you said:

Life is not an easy river, flowing quietly  
A torrent of emotion  
Is sweeping over me!

Walking on the water, I'm falling down  
O Lord, won't you please hold my hand?  
The tide is rising  
I'm over my head—  
Still holding on fast to the words that you said:

Banks of River Jordan  
Sweetly calling me,  
I still have work to finish here  
A mission to complete!

Walking on the water, I'm falling down  
O Lord won't you please hold my hand?  
The tide is rising  
I'm over my head—  
Still holding on fast to the words that you said:

Reaching for your Presence,  
Clouds break overhead  
Sunshine on my shoulders  
Better times ahead!

## *Archways of Infinity*

Archways of infinity  
Sacred space geometry  
Allah's light is filling me  
And I am lifted up in peace!

Archways of infinity  
Moorish art you speak to me  
Fill my cells with pure delight  
La illaha il Allah!

Archways of infinity  
Heaven's gates for all to see  
Mosaic patterns pure and bright  
Reflecting now your fractal light!

Archways of infinity  
Moorish art you speak to me  
Fill my cells with pure delight  
La illaha il Allah!

Archways of infinity  
My soul longs for God through thee  
Merging with infinite bliss  
One with God, whirling dervish!

Archways of infinity  
Moorish art you speak to me  
Fill my cells with pure delight  
La illaha il Allah!

There is nothing left but God!

## *Divine Constellation*

As I look to the skies late at night  
My soul filled with awe and delight—  
Then I focus my gaze  
On three stars in the haze  
That point to God from afar!

Gently placed by the great master painter,  
In loving and focused elation  
On the canvas so bright,  
Sirius pulsing in sight  
Tapestry of divine adoration!

Alnitak, power divine  
Now through me let your sweet light shine!  
Sword of the faithful and true  
Charge me with light rays of blue!  
Now envelop my soul with thy faith in the goal  
That leads all to their ascension!

As I look to the skies late at night  
My soul filled with awe and delight—  
Then I focus my gaze  
On three stars in the haze  
That point to the flame in my heart!

Alnilam, wisdom divine  
Now through me let your sweet light shine!  
Illumine the world for all time

Yellow fires of the ancients now shine!  
Now envelop my soul with fresh hope in the goal,  
That leads all to their ascension!

As I look to the skies late at night  
My soul filled with awe and delight—  
Then I focus my gaze  
On three stars in the haze  
That help me to make a new start!

Mintaka, love's beauty divine  
Now through me let your sweet light shine!  
Propelling love flame of compassion,  
Rose petals of immortal kindness!  
Now envelop my soul with child joy in the goal  
That leads all to their ascension!

As I look to the skies late at night  
My soul filled with awe and delight—  
Then I focus my gaze  
On three stars in the haze  
That point to God from afar!

Gently placed by the great master painter,  
In loving and focused elation  
On the canvas so bright,  
Sirius pulsing in sight  
Tapestry of divine adoration!  
Consolation, divine constellation!

## *As Life Unfolds*

I was a little girl on my grandfather's knee,  
He looked at me quiet  
And whispered to me,

He said, when you grow up  
You'll see that it's true, you don't make your life  
You follow it through.

It's true my little dear as your life unfolds,  
There is a greater plan  
As you are growing older,  
And God works through the many events—  
He loves you in spite of your human defense.

I was talking to Jesus just the other day,  
Pouring out my heart, when I thought I heard him say.  
You think you own your life but that's not really true,  
Your life is not your own, you don't live just for you.

Tu verras p'tite chérie au fil des jours  
La vie tu la fais pas, tu la suis pour toujours  
Alors sois gentille au fil des jours,  
Ta vie se déroule avec divine amour!

## *Star of Bethlehem*

As the snowflakes gleam and the churchbells ring  
In a little town so far away  
Rainbow colors bright warm the chill of night  
Melting hearts aglow with living flame  
Let your soul take flight through the dead of night  
and your spirit soar o'er a refrain

As you lift your wings follow a moonbeam  
To that little town of Bethlelem  
In the manger dear you will find your king  
And your treasure will be waiting there  
Rainbow colors bright warm the chill of night  
And the breath of angels fills the air  
Now the sun shines bright, fades away the night  
A new love song echoes through the air  
And the snowflakes gleam and the church bells ring  
The kept promise of that night fulfilled  
Rainbow color dreams that the angels sing  
In that little town of Bethlehem  
Where the church bells ring and the new year brings  
The kept promise of that night fulfilled!

## *Last Farewell*

Though it looks like you sleep in your radiant white raiment  
I know you're right here by our side—  
Though your body lies still as a mighty white glacier  
Your soul sings with heaven's heart fire.

And inside every snowflake's a spark that is gleaming,  
Deep in every crystal of ice;  
Diamond fires of Omega and Alpha are glowing  
Filling hearts with the greatest delight!

The river is wide; we cannot yet cross over,  
So we wave to you now from this shore.  
Your boat has been waiting, and angels attending  
It's time for you now get on board.

Bon voyage, mon ami! May our blessings go with thee,  
With our love you will soar and be free—  
Say hello to our Father and Mother in heaven  
Who welcome you now tenderly.

The river is wide, we cannot yet cross over,  
So we wave to you now from this shore.  
And angels are waiting to gather our blessings  
It's time for you now, get on board.

Many happy returns, for Serapis does beckon  
On to Luxor! Dear friend, yes, Vondir!  
Almost breathless we wait for your soul's grand reunion  
With the Mighty I AM you will be!

Bon voyage, mon ami! May our blessings go with thee,  
With our love you will soar and be free—  
Say hello to our Father and Mother in heaven  
Who welcome you now tenderly.

Say hello to our Father and Mother in heaven  
Who welcome you now tenderly!

## *The Change I See*

Little girl, little girl, what will you be?  
What to be when you grow up, will you be like me?

I will be the change I see in the world  
I will set the sail for love to unfurl.

Little boy, little boy, what will you be?  
What to be when you grow up, will you be like me?

I will be the change I see in the world.  
I will invent things that you haven't heard.

Little ones, little ones, what will you be?  
What to be when you grow up, will you be like me?

We will be the change we bring to the world.  
Then we'll build a bridge to the heaven world.

We will be the change we bring to the world.  
Then we'll build a bridge to the heaven world.

Thundering cathedrals  
Ushering me in,

Ushering me in!

Crystal cities calling,

From etheric planes,

## *Tree of Life*

Gathering the leaves of the tree of life  
Climbing the branches to heaven's holy heights—  
Meeting you there in God's great name,  
Path to ascend with our twin flame!

Malkhut Shekinah is our base  
Glorious Mother we embrace!  
From her roots we now arise,  
Souls upreaching toward the skies!

Gathering the leaves of the tree of life  
Climbing the branches to heaven's holy heights—  
Meeting you there in God's great name,  
Path to ascend with our twin flame!

Hod, Yesod, the Lamb of God  
Netzah flashes lightning rod!  
Metatron hails Adonai  
Choirs singing El Shaddai!

Gathering the leaves of the tree of life  
Climbing the branches to heaven's holy heights—  
Meeting you there in God's great name,  
Path to ascend with our twin flame!

Tiferet is our Central Sun  
Hesed Gevurah, make us one!  
Hokmah, Binah and Keter  
Can you see us almost there!

Gathering the leaves of the tree of life  
Climbing the branches to heaven's holy heights—  
Meeting you there in God's great name  
Path to ascend with our twin flame!

Covering Cherub guard our feet  
On Jacob's Ladder we entreat!  
Panuel wrestle our human self  
Till morning dawns and we are blessed!

Gathering the leaves of the tree of life  
Climbing the branches to heaven's holy heights,  
Meeting you there in God's great name  
Path to ascend with our twin flame!

Gathering the leaves of the tree of life  
Climbing the branches to heaven's holy heights,  
Hold fast now while our souls take flight  
Sacred ascension in the light!

## *Light of the Heart*

I AM the Light of the Heart  
Shining in the darkness of being,  
Changing all into the golden treasury  
Of the mind of Christ!

I AM projecting my love  
Out into the world,  
To erase all errors  
And break down all barriers.  
I AM the power of infinite love  
Amplifying itself,  
Until it is victorious  
Worlds without end.

I AM the Light of the Soul  
Longing for the goal,  
To enter the chamber, the mystical chamber  
Of the bride of Christ

I AM projecting my love  
Out into the world,  
To erase all errors  
And break down all barriers  
I AM the power of infinite love  
Amplifying itself,  
Until it is victorious  
Worlds without end!

Until it is victorious  
Worlds without end!

Until it is victorious  
Worlds without end!

inspired by the decree,  
I AM the Light of the Heart by Saint Germain

## *Little Prince*

He came from a distant star late that night  
Touched my heart with his eyes so bright,  
Asking me to draw him a lamb  
So he could play in the desert sand!

He spoke of his planet so far away  
Spinning fast through the night and day,  
And the rose that had landed there  
That he nourished with humble care!

He had traveled worlds without end  
Seen what counts the most in the end  
Little Prince, your hair in the wind  
You are my best friend.

How to tame a fox day by day,  
Build a home with flowers in each pane,  
Understand there's nothing to gain  
From money and fame.

I cried when he told me he had to leave  
Tugging me gently on the sleeve,  
Asking me now to look away  
As a snake helped him to escape!

He had to go home now it's plain to see  
To a rose who couldn't stand the breeze,  
And I sobbed as I held him fast  
Little Prince you are home at last!

Little Prince, your hair in the wind  
You are still my very best friend,  
Tamed me too in spite of myself  
And left me so blessed!

Little Prince, please come back to me  
On a spiral of infinity,  
The sky won't look the same way again  
Till you hold my hand!

Little Prince your hair in the wind  
You are still my very best friend,  
Tamed my soul in spite of myself  
And left me so blessed!

## *Beautiful Sun*

Shining to free everyone!  
Shining with the light of life,  
Shining now to end all strife!

Beautiful sun, I welcome thy love  
Which floods all the earth, hills and mountains—  
Enter my heart, make a new start,  
Fill me with rapt adoration!

No longer yield to impatience!

Break the bonds of superstition,  
Make me thy manifestation!

Your many hands are reaching down,  
To give your children victory's crown!

Fill me with rapt adoration!

Create a better world—  
Divine potential, infinite grace  
Light's treasures to unfurl!

Sandalphon, sweet angel of music

No stranger to life's struggles,  
Now dwell in heavenly realms!

Keeping that doorway open  
Dear friend of all mankind—  
Weaving floral garlands of prayers  
To grace the Light sublime!

We enter thy kingdom fair!
